Key Conclusive Points

1. It is discussed in the house that the nomenclature for Program Name should be aligned as per the AICTE guidelines. (As per AICTE mentioned 'List of Courses covered under each stream'). However, for providing special course in the area of Smart manufacturing, additional subjects like robotics, 3 D Printing, Artificial Intelligence and Machine learning, Nanotechnology, Cloud Computing and Cyber security, IoT have been incorporated in the curriculum for the New Academic Session.
2. To provide more flexibility to the students, the number of subjects in the elective basket should be more.
3. As suggested by the invitee member, the assessment of MOOC courses can be evaluated by the University. For the execution of this, necessary action can be taken along with the Examination Department of the University.

Further, following suggestions were made in the meeting:

1. Weblinks and Software used (wherever it is possible) which are being used in the subjects of the curriculum should be mentioned along with the Course Objectives and Outcomes.
2. List of Examiners should include internal faculties as well as external faculties majorly either from the Government Institute or having more than 5 years of experience from the Private Institute.
