

1. International Conference on Futuristic Materials (ICFM - 2022)

Date: 8th - 9th December 2022

Venue: I block Auditorium

School of Sciences (Physics Program), Manav Rachna University, hosted a two-day International Conference on Futuristic Materials (ICFM-2022) on December 8-9, 2022. The conference was jointly sponsored by the Department of Science and Technology (DST) and Defence Research and Development Organization (DRDO), Govt. of India. ICFM-2022 provided a platform for sharing ideas on cutting-edge research in the domain of futuristic materials, broadly aimed at fulfilling the 17 sustainable development goals identified by the United Nations.

Prof. (Dr.) Venugopal Achanta (Director, CSIR-NPL, New Delhi) was the honorable chief guest. The conference encompassed 17 invited talks, 11 oral presentations and 34 poster presentations from over 100 delegates across the globe. Attendees included academicians and students from various renowned universities including Russian Academy of Sciences, Russia; KKU, Saudi Arabia; Dambi Dollo University, Ethiopia; DGIST, South Korea; NMRI, Japan; among others. Delegates from several Indian institutes such as NPL, New Delhi; NIT Hamirpur; NIT Rourkela; IUAC, New Delhi; IIT Delhi; UPES, Dehradun; and other central universities were also present.
