

TITLE - Educational visit to participate in the “Water and Waste Management Conclave”

Date: 06th February 2024

Venue: Tamarind Hall, India Habitat Centre, New Delhi

The UG and PG students of the Department of Sciences have priorly registered for “Water and Waste Management Conclave” on 19th January 2024, from 9:00 a.m. onwards for the UG and PG Science students and the faculty members.

During the visit to conclave, students witnessed the book launching event of a book titled ‘Endocrine Disrupting Chemicals: Environmental Occurrence, Risk, and Remediation’, published in Elsevier edited and co-authored by Mu Gamma. Mu Gamma is a research and consultancy organization aimed at improving the quality of life of communities through environment friendly, science-based solutions that inform policy recommendations. Their goal is to support organizations working to achieve the Sustainable Development Goals (SDGs) by identifying the right tools, strategies, and actions to achieve them. Their core competencies include water resource management; waste management; chemical pollution control; public health and environment; climate change adaptation, mitigation and resilience; sustainable policy development, governance and advocacy; capacity building and training; and corporate sustainability programmes. The conclave addressed the knowledge and capacity gaps that exist around the use and management of contaminants of emerging concern (CECs) where there is limited knowledge about sources and health risks of CECs.

The students attended the sessions by international experts and had a great lunch and returned to the campus with an enriched knowledge on water and waste management and with a great networking opportunity.
