

**1. Vijay Arora, B.Tech. (ECE) 2016-20
Data Analyst, 3Pillar Global-India (10LPA)**

I am very thankful and obliged towards my department and its faculty members for their unending support and motivation to pursue my dreams and make a successful career ahead. The environment provided by the University makes you a very well composed Human being.

**2. Raghav Rastogi B.Tech. (ECE) 2015-19
Senior Member Technical Staff at Siemens EDA (Siemens Digital Industries
Software) (6.5LPA)**

Having a fascination with microprocessors and chips was the sole factor that motivated me to study electronics and communication. I decided this was the sole area I would follow and base my career on the day I went to my first lesson in digital design using VHDL. Thanks to Manav Rachna University, my faculty and the department, all because of them I was able to grab the required knowledge and got the opportunity to work in Truechip Solutions Pvt Ltd.

3. Dhruv Sharma B.Tech. (ECE) 2015-19
Application Engineer I at Cadence Design Systems (12LPA)

Manav Rachna University gave me an appropriate platform to enhance my skills by the medium of the faculties and other facilities provided there. The Department was always so supportive and helpful in showing me the right path to accomplish my goals in life and build a successful career. The department helped me groom myself to get placed in the core Electronics firm.

4. Rahul Sharma, B.Tech. (ECE) 2013-17
Design Engineer, Mentor Graphics (20 LPA)

The department of ECE, Manav Rachna University made me realize my interest in the area of Electronics, Chip Design, VLSI, Integrated Circuits and motivated me always that I am capable enough to become a successful as well as resourceful person in life. I extend my gratitude towards all the faculties, departments and the University.

5. Sunny Verma (Department of ECE, 2012-2016)
Associate Security Consultant in the Advisory division at Security Compass,
Toronto, Ontario, Canada

I am very thankful to the Faculty of Engineering, Department of Electronics and Communication Engineering, Manav Rachna University for the overall grooming provided by them by nurturing my technical as well as personal skills because of which I am standing upfront in my career and have accomplished my goals. The environment we get in Manav Rachna University is truly compassionate for your overall development as an individual and also as a professional.

**6. Ms. Priyanka Mangla, B.Tech. (ECE) (2011-2015)
Scientist 'SC', Space Application Centre, ISRO**

My career has been greatly influenced by MRCE. I received excellent values from the faculty, which prepared me for the outside world. I was able to develop my foundational knowledge for every topic thanks to the tutorial sessions given at the department of electronics and communication. I currently hold the position of Scientist C at the ISRO's Space Application Centre in Ahmedabad. The administration of the college and the instructors have both been warm and helpful. Thanks to the services this college offers. I am who I am right now.

**7. Mr. Prashant Gupta Department of ECE (2011-2015)
Software Development Engineer, Amazon.com, Seattle, Washington**

Department of Electronics and Communication Engineering, Manav Rachna University has always given me a constant support in all my tasks and also provided an appropriate platform to polish my skills and enhance them in a way to become a successful individual in professional world. The Department as a whole was always supportive and helpful in showing me the right path to accomplish my goals in life and build a successful career.

**8. Anioushka Lomas, B.Tech. (ECE) 2004-08
Squadron Leader (Indian Air Force)**

I am very thankful to the faculty of the Department of ECE and Manav Rachna University as a whole for always being very motivating and supportive in all endeavors. I'm living my dream because of my belief and their constant support and motivation
