Ms. Aditi Pratap
MSc Chem Batch 2019-2021

Being a part of new beginnings is always special and so is my journey as a Patent Research Analyst as it kicked off along with Manav Rachna University. Looking back, I can certainly say that MRU was the most important milestone in shaping my career. M.Sc Chemistry provides an innovative course design, best-in-class faculty from the industry, and hands-on experience from various Labs. Throughout the academic sessions, I was challenged to discover capabilities that I never knew I had. Along with academics, the University focuses on personality development which helped me build a rewarding career.

Currently, I am working as a Patent Research Associate for Expert Lancing. It has been an unforgettable journey since I joined Manav Rachna University.

As a patent research associate at Expert Lancing Research Services, I can look forward to advancing my career as a Senior Patent Research Associate, followed by a Team Leader, and finally, the Head of Operations. This career path provided me the advantage of always being associated with the Chemistry and Life Sciences domain yet exploring Intellectual Property Rights, therefore being wholesome for Chemistry post-graduates.

Ms. Sakshi Gupta
M.Sc Chem Batch 2017-2019

Masters of Science (M.Sc) in Chemistry from Manav Rachna University offers a good combination of learning and self-development. It turned out to be a blessing in disguise because it helped me in unleashing my all potential. The institution not only provided me a quality education but also helped me to groom my overall personality. I got all the support and guidance from faculties and other staff members. The institute also

organized various industrial visits, guest lectures, conferences and workshops to give hands on experience to the students that helped me to identify my interest in the research area.

Ms. Ritika Choudhary
B.Sc (H) Chem. Batch 2016-2019
M.Sc Chem Batch 2019-2021

A very new phase of my Career (after school journey) started with ManavRachna University and now it has been a fabulous 5 years journey from my Graduation to Masters. They always took the step forward in making my career better by giving me a map of knowledge. Apart from my academics I have been a part of various Conferences (both National and International) and was a part of music society & personality development sessions as well.

Manav Rachna is not only a platform for academics but a whole new world commencing and developing a better future for students like us to rule in this competitive world. Now I am fortunate enough to get placed with Infollion Research Services in the last semester of my degree. All credit goes to MANAV RACHNA UNIVERSITY.

“And I can proudly say that I am a student of this Institution”

Ms. Anjali Garg
M.Sc Chem Batch 2018-2020

With fully furnished infrastructure and highly operated laboratories, it makes an individual a step ahead to the practical world as well. Being a part of this University, I have experienced and learnt a lot with expert Professors who have been very supportive, knowledgeable and have always provided courage and cooperation in each and every situation. Also, a big applause to be mentioned for the tremendous internship opportunities to various reputed industries and Government organizations and thus in turn giving us a way towards many Job options. I find myself to be very thankful to be a part of this University.

Mr. Himanshu Kashyap
M.Sc. Physics Batch 2019-2021

Studying at Manav Rachna University and completing M.Sc. Physics was a great decision that I am grateful for. The faculty are very helpful and they groom the individual student in every aspect of Physics. The well equipped laboratories, along with persistent support of lab technicians was noteworthy. Besides, the overall infrastructure and the lively atmosphere with regular student activities on campus, enrollment in various MOOC courses, played an important role in grooming my personality. I am thankful to my dedicated teachers, who guided me on the research projects at campus, and further enhanced my potential. Here I got an opportunity to boost my career, being selected for a fully funded Doctoral program (1500 USD per month) at Chungnam National University, South Korea.

Ms. Surekha Chaudhary
M.Sc. Physics Batch 2018-2020

Being at Manav Rachna University greatly helped to shape my career in research. The publications with my mentor helped me a lot to gain a doctoral position in GIST, Gwangju, South Korea. I am thankful to the entire Physics Department and Manav Rachna administration for providing travel fundings as well during my research internship. Apart from academics, the lush green gardens, well furnished classrooms, clean surroundings, especially the well maintained libraries, have captured my attention since the time I first entered the campus. I believe being here was quite a fortunate experience, and allowed to enhance my knowledge base to the fullest.

Ms. Muskan Malhotra
M.Sc. Physics Batch 2021-2023

Doing M.Sc. from Manav Rachna University has been a great experience. The teachers are very friendly and brilliant in their field. They helped me gain interest in Physics and also during placements, getting me placed as an educator at Space Technology and Education Pvt. Ltd, even before the completion of my Masters degree. I can clearly say that being a student here has significantly helped in shaping my personality. Students are provided several opportunities to learn and grow by being part of various activities outside the regular academic framework, and I would encourage others as well to make maximum use of these. The influence of my mentors has been enormous, and I plan to use these skill sets learnt from my teachers, while educating school and college students at my future workplace as well.

Ridhima Nehra

(M.Sc Maths-Batch 18-20)

pursuing ph.d from North Dakota University

Mathematics programme at Manav Rachna University has enhanced my personal and professional development. It was that one course that allowed me to discover a side of myself that I never knew I possessed. I am grateful to Department of Mathematics, Manav Rachna University for starting this course and assisting me in establishing a clear aim and a new and exciting outlook on life. I would recommend this course to anyone who believes in equality and equity in society and wants to make a difference. The Department of Mathematics ensured that it had top-notch faculty and a pleasant environment, as well as delivering actual experience

rather than just theoretical Knowledge. It keeps you occupied with interactive and hands on training on different mathematical tools ,which in result enhance the computational as well as analytical skills.

Ms. Sheeba Lekhi
M.Sc. Mathematics(2020-22)

Everyone needs a great platform to enhance their skills and studies and to upgrade their personality from every edge. All it takes is a right decision and I made this decision in my life by enrolling myself in Manav Rachna University for my undergraduate programme.

The interactions with the faculties here are so good and knowledgeable that what a brilliant student craves for.
